

## **Alan McCammon**

Alan McCammon leads the Brownfields & Remediation Assurance Unit and is a member of the management team for the Land Remediation (Contaminated Sites) Section of British Columbia's Ministry of Environment. His primary responsibilities focus on the areas of brownfield redevelopment, compliance, and environmental assessments involving contaminated sites. Alan manages the Ministry of Environment's role in implementing the BC Brownfield Renewal Strategy focussing on the contaminated sites and brownfield regulatory framework and participating in a broad range of education and capacity building initiatives. He has extensive statutory decision making experience under B.C.'s Environmental Management Act and Contaminated Sites and Hazardous Waste regulations addressing high risk contaminated sites. Alan received his M.Sc. in Earth Sciences (Hydrogeology) from the University of Waterloo and is a registered professional geoscientist in the Province of British Columbia.
