

**Eric K. Pringle, P.Eng.**  
**Principal and Project Director**  
**Hemmera**

Mr. Pringle is a Principal and Project Director at Hemmera, a BC-based environmental consulting firm. With over 20 years of experience in contaminated site remediation and brownfield development, he has conducted hundreds of contaminated site projects. He is actively involved in Brownfield development, and recently played a lead role in three major policy development projects, working with the National Brownfield Association.

An active industry participant, Mr. Pringle is a board member of the British Columbia Environment Industry Association and the H.R. MacMillan Space Centre. He was a founding member of the National Brownfield Association's BC Chapter, and serves as the Communications chair. At Hemmera, Mr. Pringle is a member of the Environment Committee, playing a key role in implementing the firm's Environmental Management Plan.
